MAYOR AND MURPHY
END BITTER FIGHT

Contest for Control of Tammany Hall Settled Amicably.

MURPHY STILL THE LEADER

But McClellan Will Have Free Hand in Filling All Offices Hereafter.

NEW YORK, April 29.—An end to the contest for control of Tammany Hall between Mayor McClellan and Charles F. Murphy was announced today, following a conference between Timothy D. Sullivan and Corporation Counsel William B. Elyson, the latter of whom represented the Mayor. Mr. Elyson, after the conference, gave out a statement in which he said the Mayor would be left free to appoint the highest class of men he can find for city offices, but that he (Elyson) will advise against the appointment of men inimical to the Democratic organization or its leaders. Mr. Sullivan, he said, agreed that only efficient men should be retained in or appointed to city offices. The Mayor will recognize the right of its leaders to control the Democratic organization, and will ask that the organization give him its support in his efforts to solve the great municipal problems which confront him. Mr. Elyson said in that way, it was hoped, he added, to eradicate the lines drawn between the organization and the administration.

Charles F. Murphy, leader of Tammany Hall, said today that Mr. Sullivan conferred with him before making the agreement. In reply to a question whether he is to remain as leader, Mr. Murphy replied that he supposed he would remain until he was put out, but that was not a part of the agreement with the Mayor.

Mayor McClellan to-night issued a statement in which he notified the results of the conference between Timothy D. Sullivan and Corporation Counsel William B. Elyson.

In his statement the Mayor says that this conference, as well as others, was held with his sanction, but that throughout it all he insisted that he be left alone free to fill all offices with men of the highest class obtainable.

"I have made no deal," he says, "and I have authorized the making of no deal which alters my position in any way. It is, and shall be, my ambition to give to the city the best administration that is possible for me to give it, and factional politics will not be permitted to interfere with that course."

"If the elements that constitute Tammany Hall wish to harmonize on that plane, then I am for harmony. For a political peace which is so useful to my party in the city, the State and the nation I shall go as far forward as any man, but not one step backward."

PARALYSIS CURED

PATIENT GIVES ALL THE CREDIT TO DR. WILLIAMS' PINK PILLS.

Sorely Afflicted, He Was Cured After Ordinary Methods Failed Even to Give Relief.

There are still people who say that partial paralysis cannot be cured. If you have partial paralysis or some other severe nervous disorder, do you think it is better to be treated by some one who insists that you are incurable, or to take a treatment that grateful patients throughout the United States testify has cured them? A recent case where a cure was effected was that of Mr. Charles H. Gliden, of Portland, Iowa. Mr. Gliden is a veteran of the civil war, and fought with the Eighth New York Heavy Artillery. The story of his affliction told in his own words is as follows:

"In 1893 I was attacked with terrible twitching sensations and numbness all over my body, which my physician said was paralysis, and which he attributed to a bullet wound received during the war."

"I seemed to be getting paralyzed all over and finally could hardly walk. My eyes became weak and I had to get stronger glasses. I could not move the left side of my face and my face and mouth were drawn over to the right side to such an extent that I could not speak distinctly. I was also troubled with palpitation of the heart."

"In the fall of 1895 after having been under the treatment of several doctors and having tried electricity without help, I bought six boxes of Dr. Williams' Pink Pills and took some relief. After taking six boxes more, I could stand a hard day's tramp and another six boxes cured me."

"This case, like numerous others, bears witness to the wonderful curative properties of Dr. Williams' Pink Pills in nervous disorders. Dr. Williams' Pink Pills cure general and nervous debility because they make new blood. They strike at the root of these and other blood diseases, such as rheumatism, anaemia, indigestion and nervous troubles, such as neuritis, nervousness and spinal weakness."

A valuable booklet, "Nervous Disorders," will be sent free on request. Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, by Dr. Williams Medicine Company, Schenectady, N. Y.

county board of health met today ordered compulsory vaccination in Rowan county as a precautionary measure. The Spencer schools were closed today. There is no fear of a spread of the disease.

DEFENSE CLAIMS
IT'S CONSPIRACY

Trying to Prove Alibi for Men Charged With Black Hand Crimes.

MANY WITNESSES TESTIFY

WILKESBARRE, PA., April 29.—The defense in the "Black Hand" trial opened its side of the case today. Chief counsel for the prisoners said that he proposed to show that the Commonwealth had hatched a gigantic conspiracy to deprive innocent and law-abiding men of their liberty and send them to jail. He also said all of the defendants would be able to prove an alibi.

The first witness called was A. R. Rhenard, a photographer, of this city. He took photographs of the house occupied by one of the defendants, where it was alleged the conspiracy plots were planned. The defense claims that there are only three rooms in the house, and that it would be impossible for so many men as the Commonwealth contended to meet in such small quarters.

Leon Dominicki, one of the defendants, swore that he did not arrive in this country from Italy until July, 1906, and that the crimes charged against him were committed at a much earlier period. Salvatore Bolka, another of the prisoners, testified that he knew nothing of the charges brought against him. He did not belong to any secret society. Three witnesses testified to his good character.

The afternoon session was taken up by a number of the alleged "Black Hand" defendants being on the witness stand. In their testimony they denied the charges made by the Commonwealth. Some of them made attempts to prove an alibi, claiming to have been in Italy at the time of the alleged offenses. Others testified that the Rizzo brothers conducted a gambling-house, and were in constant fear that some of the defendants were about to "squall" on them. Dr. George stated that they had never known each other before they were arrested.
